About the Author:

Phyllis Wheeler taught computer science classes at a homeschool co-op in St. Louis for three years. She has also been a webmaster since November, 2003. A homeschooling veteran, she works in the pharmaceutical industry as a mechanical engineer. Along the way she has written some computer programs and taken some computer courses. She has also worked as a newspaper reporter and freelance writer. She has bachelor's degrees in English from Smith College and in mechanical engineering from Washington University in St. Louis. She and her husband Steve have four children.
